OBJECTIVE

Dedicated B.Tech AI & Data Science student with a strong foundation in programming and software development. Passionate about innovative problem-solving and expanding technical expertise through hands-on projects. Excels in analytical thinking, teamwork, and adaptability in dynamic team environments. Seeking an entry-level software development role to deliver impactful AI-driven solutions

EDUCATIONAL INFORMATION

- | | |
|---|------------------------|
| • V.S.B College of Engineering Technical Campus | 2023-2027 |
| B. Tech Artificial Intelligence & Data Science CGPA: 8.9 | Coimbatore, Tamil Nadu |
| • Global Matric Higher Secondary School | 2022 - 2023 |
| XII Percentage:88% | Kangayam, Tamil Nadu |

SKILLS

Technical Skills: Java, Python, My SQL, Git

Soft Skills: Teamwork, Time Management, Adaptability

Languages Known: English, Tamil

INTERNSHIPS

Machine Learning& AI | Tamizhan Skills Dec 2025-Jan 2026

Chennai, TamilNadu

- Completed a Machine Learning & Artificial Intelligence internship at Tamizhan Skills, gaining hands-on experience in AI concepts, model development, and data-driven problem solving
- Involved in building AI-powered Chat-bot capable of analyzing documents, extracting key information, and generating responses using Large Language Models

Data Science with Machine Learning | Techvolt Software June 2024-Jul 2024

Coimbatore, TamilNadu

- Acquired practical experience in Data Science and Machine Learning through an internship at Techvolt Software, working on data analysis and predictive modelling techniques
- Performed data extraction, data preprocessing, model training, and evaluation to improve the accuracy and efficiency of AI-driven solutions

PROJECTS

FolioForge -PortFolio Generator | V.S.B College of Engineering Technical Campus Jan-2026

- Designed a full-stack portfolio generation platform that automatically imports the selected repositories and creates personalized developer portfolios with responsive layouts
- Implemented secure user authentication, GitHub API integration, profile management, and dynamic portfolio generation using Spring Boot and MySQL
- **Tools Used:** Java, Spring Boot, Spring Security, MySQL, Thymeleaf, GitHub REST API

Health Insight Agent | V.S.B College of Engineering Technical Campus May-2025

- Developed an AI-powered Health Insight Agent capable of analyzing medical documents, extracting key clinical insights, and providing context-aware responses using Large Language Models (LLMs)

- Built an intelligent document processing pipeline with PDF parsing, information extraction, secure user authentication, and cloud-based data management to support personalized healthcare insights
- **Tools Used:** Python, Streamlit, Groq API, Meta LLaMA Models, PDFPlumber, Supabase Database, Supabase Authentication, Prompt Engineering

CERTIFICATIONS

- | | |
|--|----------|
| • Machine Learning with Python A to Z UDEMY | Jun-2026 |
| • Introduction to LLMs NPTEL | Apr-2026 |
| • Artificial Intelligence Infosys Spring board | Sep-2025 |
| • Introduction to IOT Elite Silver NPTEL | Apr-2025 |

EXTRA-CURRICULAR ACTIVITIES

- | | |
|--|----------|
| • Coordinated the Start-Up Arena event V.S.B College of Engineering Technical Campus | Feb-2026 |
| • Attended AI & ML Workshop Coimbatore Institute of Technical | Feb-2025 |
| • Selected at college level in SIH V.S.B College of Engineering Technical Campus | Jan-2025 |

DECLARATION

I hereby declare that the above particulars and facts stated are true, correct, and complete to the best of my belief and knowledge
